11 Clever Candy Wrapper Crafts You Can Do After Binging on Halloween Chocolate

Gabrielle Taylor · WonderHowTo

Halloween night for most people with kids means tons of candy. That translates into tons of trash from candy wrappers. But even though you probably wouldn't think it, there's no shortage of alternative uses for those wrappers, from clothing and accessories to home decor. This year, get creative instead of just tossing them away. Check out these eleven DIY projects and put your "trash" to good use. #1. Candy Wrapper JewelryThere are many ways to turn candy wrappers into any kind of jewelry you can imagine. If you want to go minimalist, use one big wrapper to make a headband. You can also create a bracelet with nothing but folds or roll the wrappers up to make beads for necklaces and earrings. BiblioBagsEcouterrebun-nykissd/deviantART#2.

Candy Wrapper Pouch or Coin PurseWrappers from candies that come in bags like Skittles and M&Ms can be sewn into a zippered pouch for holding money, toys, or even more candy. Or, you could use the smaller fun-size bags to make a coin purse. Check out ...more

Why Doesn’t More of the Working Class Move for Jobs?

Harvard Business Review

Joan C. Williams, director of the Center for WorkLife Law at the University of California Hastings College of the Law in San Francisco, discusses serious misconceptions that the U. S. managerial and professional elite in the United States have about the so-called working class. Many people conflate “working class” with “poor”—but the working class is, in fact, the elusive, purportedly disappearing middle class. Williams argues that economic mobility has declined, and explains why suggestions like “they should move to where the jobs are” or “they should just go to college” are insufficient. She has some ideas for policy makers to create more and meaningful jobs for this demographic, an influential voting bloc.

Williams is the author of the new book, “White Working Class: Overcoming Class Cluelessness in America.”
